DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claim(s) 1-5,13,15-28,36,38-49,57,59-65, drawn to an image processing apparatus, method and program.
 - b. Group II, claim(s) 6-12,29-35,50-56, drawn to an image processing apparatus, method and program.
 - c. Group III, claim(s) 14,37,58, drawn to an image processing apparatus, method and program.
2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
- Group I, claim(s) 1-5,13,15-28,36,38-49,57,59-65, are drawn to an image processing apparatus, method and program which compresses a hue reproduction angle in a range of flesh color area corresponding to a flesh color in the image data.

Group II, claim(s) 6-12,29-35,50-56, drawn to an image processing apparatus, method and program which makes a contrast of neutral color image data to be low contrast, and makes a contrast of chromatic color image data to be high contrast.

Group III, claim(s) 14,37,58, drawn to an image processing apparatus, method and program which lowers maximum lightness of image data for a reflection-type print formed through subtractive color mixing, compared to image data for transmission-type film formed through additive color mixture or for a visible image on a monitor.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
